Coronis Fusion 4MP (MDCC-4330)

4MP multimodality diagnostic display system

- Color fusion display for flexible multimodality imaging
- With toolset to boost productivity
- Automated QA and calibration

A pleasure for your eyes

Coronis Fusion 4MP features an exclusive LCD panel with the latest IPS technology, offering best-in-class image quality. Its high brightness and high contrast ratio help unveil the subtlest of details so you can make the most accurate diagnosis. Its large 30" screen real estate, wide aspect ratio, and full ACR compliance make this display the perfect fit for diagnostic imaging.

Boost your productivity

Coronis Fusion 4MP comes with smart features that enhance control and productivity. Unique SpotViewTM technology allows you to boost the luminance in a region of interest while dimming the surrounding image area so you can focus on more details more efficiently.

Like all of Barco's medical display systems, Coronis Fusion 4MP comes with MediCal QAWeb, a cloud-based technology for automated calibration and Quality Assurance to ensure maximum uptime of the display with no need for human intervention.

Designed with ergonomics in mind

With Barco's Coronis Fusion 4MP, switching between workstations becomes a thing of the past. Especially designed for multimodality imaging, this diagnostic display combines CT, MR, orthopedic images, or any other combination on a single screen – for an uninterrupted workflow. You can use the single-head workstation as two bezel-free heads or as one wide-screen workspace. The choice is yours.

Its widescreen, ergonomic form factor, wide viewing angle, and DimViewTM feature (to automatically dim auxiliary displays) have been designed for the way you work and help you focus on the smallest image details.

A one-stop-shop solution

Barco medical displays include proprietary display controllers that are validated with the latest workstations and with all major PACS applications. All components are under the full 5-year warranty (including the display backlight) for complete peace of mind.
